WHAT'S THE STORY?

Baxter Storey are a leading Hospitality provider

As one of the UK's most influential catering providers, Baxter Storey deliver services to a number of sectors and businesses throughout the UK. In offering the highest level of service & produce to their myriad of clients they needed a more diverse Central London hub to support their varying business activities.

The new London location, on Greys Inn Road, is equipped to support the needs of their nomadic team by providing a versatile and agile 'drop in' space.

The facility provides large format rustic refectory tables, fixed and bookable desk spaces, 2-person study rooms as well as VC equipped meeting and training rooms. All of the spaces have been carefully personalised to reflect the care and attention of their offering and the leisure side of their business.

Also, rather uniquely, the space has been equipped with a coffee barista training academy, which is immediately visible upon entry, to create a lively buzz and great energy within this versatile space.
