

ANCHOR Anchorfix Aerosol Adhesive

TECHNICAL DATASHEET

Anchorfix is an aerosol adhesive which gives an exceptionally strong adhesion to a wide range of demanding uses.

- Multi-purpose
- Controllable spray pattern to reduce overspray
- Cost Effective
- High bond strength

Areas of Application

Particularly suitable for bonding foam to foam and other materials such as fabrics, wood, concrete, metal, plastic, rubber and polythene.

Bonding foam, flooring, carpets, packaging, laminating and decorative trades. It can also be used for fixing insulation materials and to bond polythene sheeting to itself during asbestos removal and treatment.

Storage and Handling

Do not store at temperatures over 48°C, avoid exposure to direct sunlight and do not store directly onto a concrete floor. For optimal performance store at 21°C.

Ensure consistent stock rotation, keep all containers closed and upright to prevent contamination and do not mix with other adhesives.

Cleaning

Wash all equipment with cold or warm water before adhesive dries.

Available in:

Anchorfix is available in 500ml aerosol cans
